Enable Wi-Fi usage and connect

1. Click the network icon 📡 in the lower-right corner of your screen.
2. Select your network status from the menu that appears.
3. Make sure Wi-Fi usage is enabled, which will allow your Chromebook to detect nearby networks. In the menu that appears, click 📡. If you see 📡, that means Wi-Fi is already enabled.
4. Detected networks automatically show up in the menu. To connect to a network, simply select its name.

When you see the 📡 icon in the lower-right corner of your screen, that means your Chromebook is connected to the network.
