ANDROID
How do I find the wireless MAC address for an Android Device?

1. Under your Applications, select Settings
2. At the very bottom of the list, choose "About Device (Android Phones may say About Phone)
3. Choose Hardware Information
4. Your MAC address will be listed under Wi-Fi MAC Address.

iPhone's MAC address

1. From the home screen, tap **Settings**.

2. Tap **General**.

3. Tap **About**. The window shown below appears.

The iPhone's MAC address - referred to as the **Wi-Fi Address** in iOS settings - is displayed on the screen.
